That is fine with me.

I left 2.7 in the outline open to them to use as they see fit. It doesn't seem like Navy/DLA specifically call any point in the process "Maintenance" which is why I don't think suggest the term in a lengthy discussion of the Tank 5 incident.

Omer

I have reviewed the outline. Section 2 is title "Tank 5 Inspection, Repair and Maintenance Practices", but there is no discussion about their maintenance program. Is this discussed somewhere else?

Roxanne

Hi DOH, I want to send this suggested outline to Jim Gammons and Terri at Navy/EXWC on Monday morning as a suggestion to improve Section 2. I revised the outline we shared yesterday Wednesday in hopes that we can get past this stage and close scoping. It contains a lot of Terri's information, but some of it has been reorganized and rearranged to be more coherent.

Let me know if you have any comments or questions.

Thanks,
